

>> ABOUT US

MOA FUR is focused on sourcing the finest quality mink furs from Europe. We are cooperating with mink farms that follow sustainability rules thus delivering top-quality skins. Our team carefully selects the skins and prepares them for further sales to third parties like fashion houses, brokers, clothing manufacturers.

Thanks to the well-trained and educated team we are able to select and deliver the finest quality skins. We are storing the skins in 24h monitored cold conditions in our warehouses in order to preserve the best quality of the fur.

Our skins are skinned, scraped, dried, and stored in cool conditions.
For special demands, we can execute the tanning process.

Thanks to the local sources we are able to deliver the top quality skins at more competitive prices than auctions with benefits for buyers.

Our stocks hold between 60-70 thousand skins ready for sale.

Rebates vary from 5% > 100.000€ up to 10% < 100.000€ from the actual auction prices.

Please contact us for the best offer >> order samples >> arrange a meeting on site.
