>> **MOUNTING TECHNOLOGY**

suspension

suspension using truss with clamp

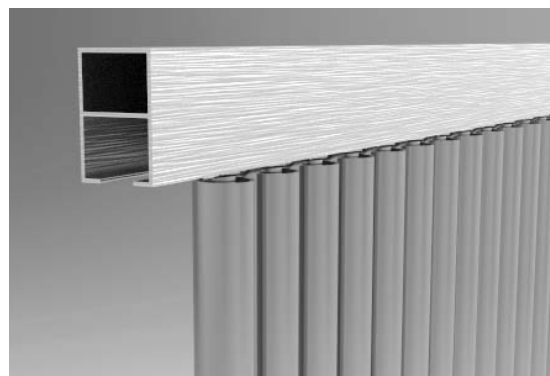

truss clamp
with installed end fitting from the chain

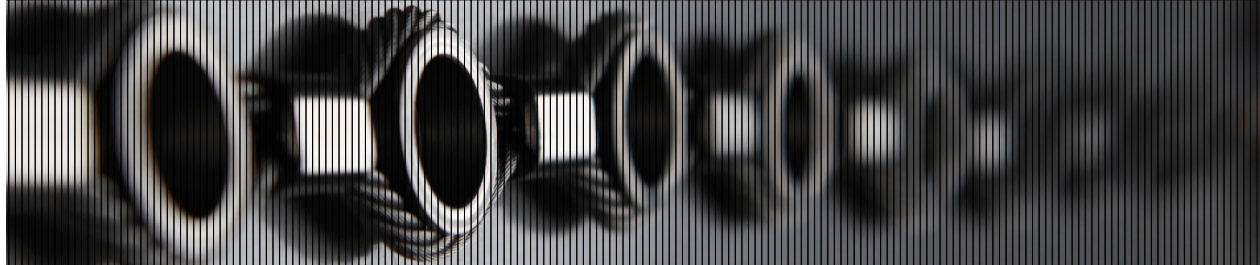

eye bolt with cut to Maxima

thread to ALU profile

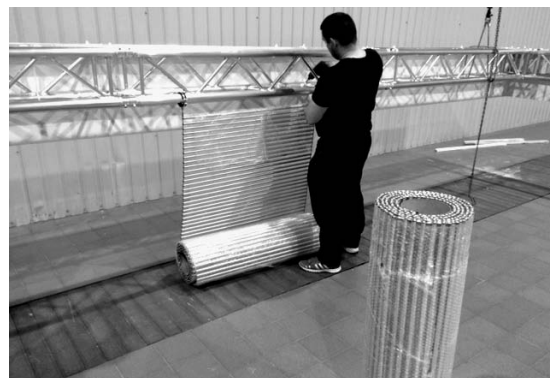

>> MOUNTING TECHNOLOGY

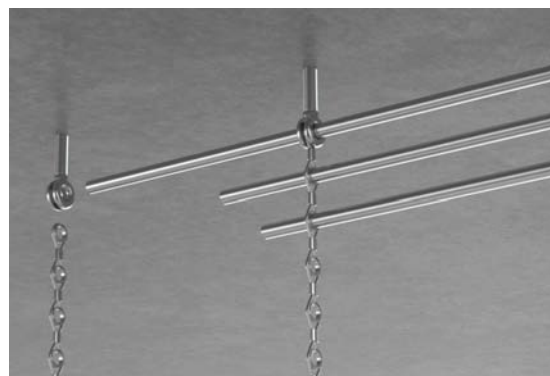

MOA screen is delivered in rolls
for resolution **V30 x 16** and **V30 x 12**

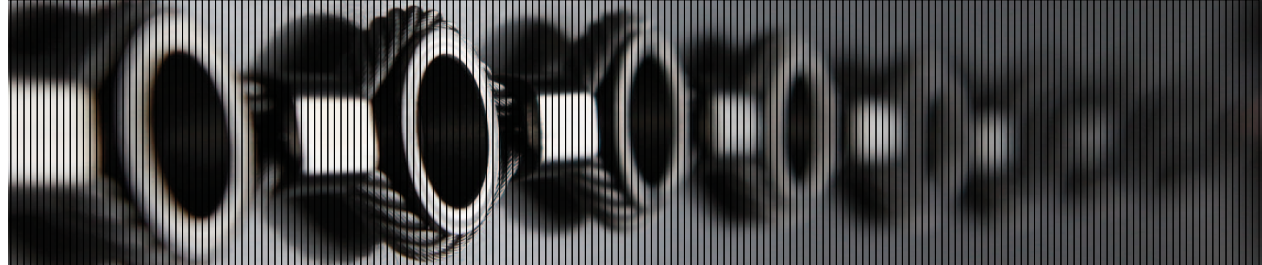

Install the end fittings into the truss clamps
and start lifting your suspension

MOA screen is delivered separately as chain
and tubes for resolution **V50 x 15** and **V40 x 16**

Install chains and then slide in the tubes

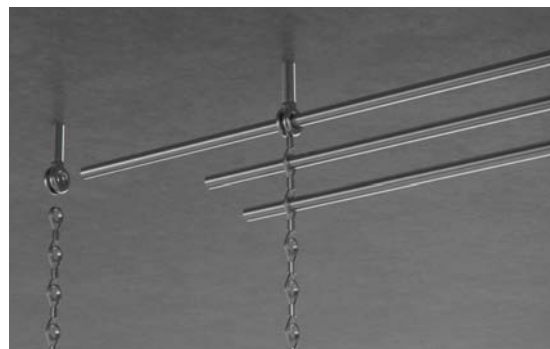

>> **MOUNTING TECHNOLOGY**

ceiling to the floor

Install eye bolt in the ceiling

Place the eye bolt in the ceiling making sure that the cut in eye bolt is perpendicular to the direction to tubes.

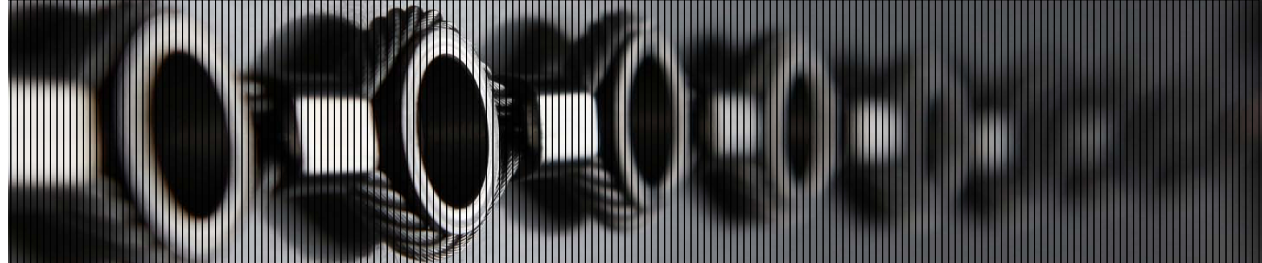

Place the anchor bolt in the floor.

Put a tension on the MOA screen chain with turnbuckle until the tubes will be tightened by rings and secured from siliding out.

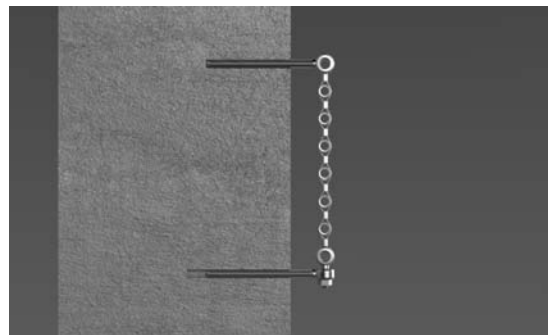

>> **MOUNTING TECHNOLOGY**

on the wall

Install an eyebolt in the wall.

Place the MOA screen chain in the cut of the eye bolt.

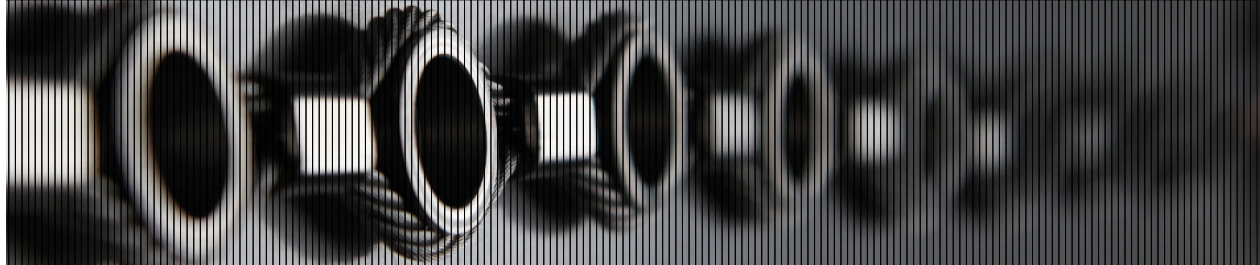

Install eye bolt in the wall and install second eye bolt in the vertical position

Put a tension on MOA screen chains so that the profiles will be tightened by the ring and secured from sliding out.

>> **MOUNTING TECHNOLOGY**

mounting fittings

Eye bolt M16

External thread swaged

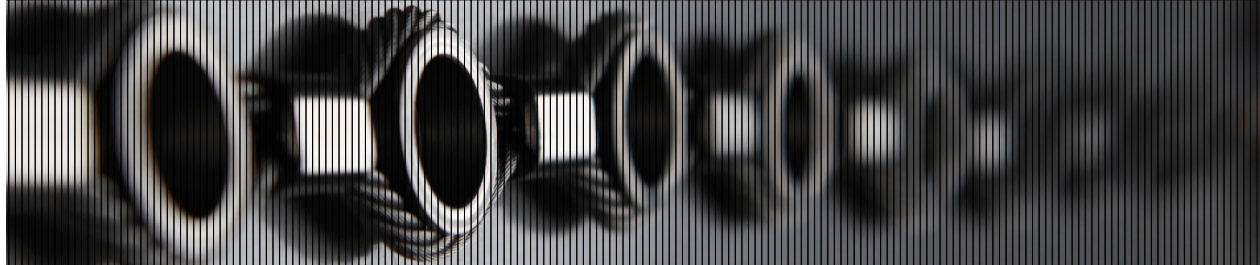

Turn buckle

Concrete anchor

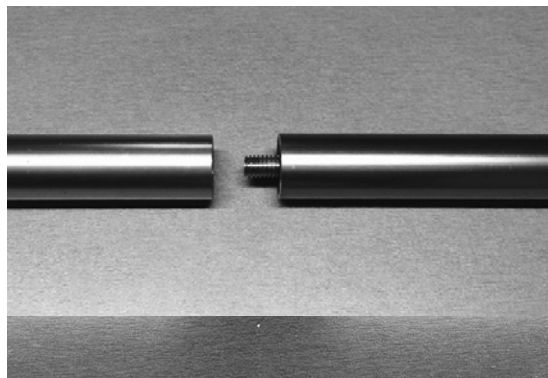

>> ACCESSORIES

Horizontal connection

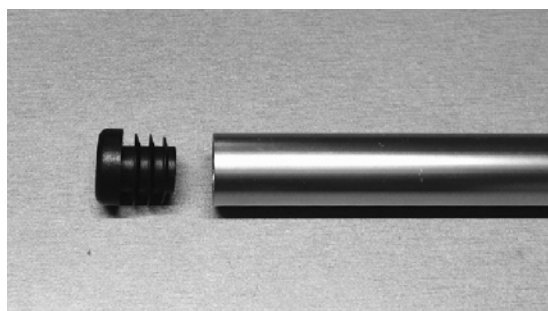

Invisible connection in horizontal direction based on the principle of driven threaded pad

Connecting two panels

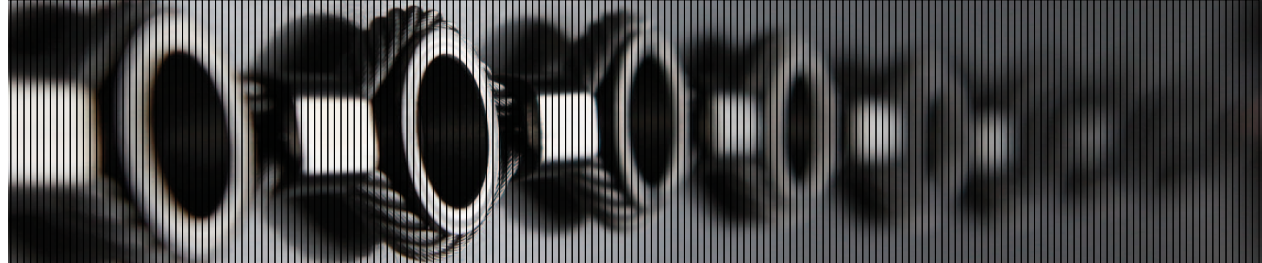

End plug

Corner inner / outer in different angles

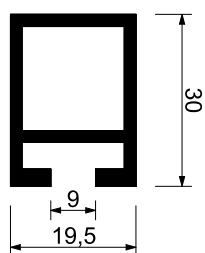

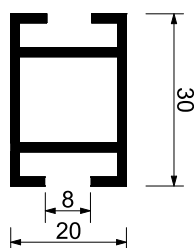

>> ACCESSORIES

Guiding profile 8-9mm slot /aluminium profile

single slot

double slot

Round Profile 8-9mm

Length/ Weight:

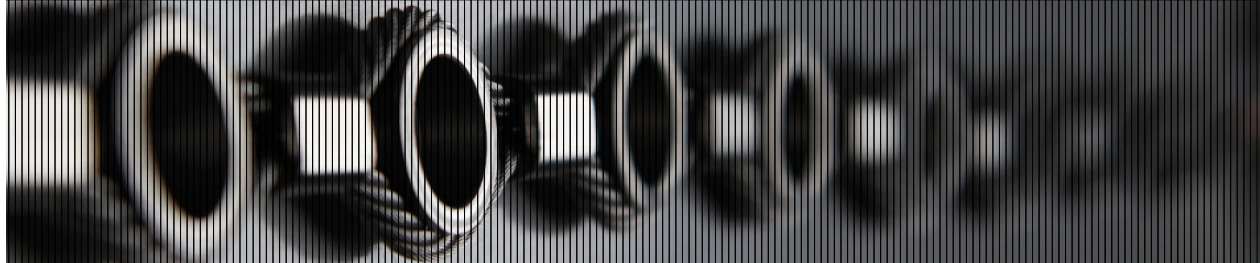

Ø - 1980 mm / 4 pieces - 7 kg

Ø - 2475 mm / 4 pieces - 9 kg

Ø - 2800 mm / 4 pieces - 10kg

Ø - 2970 mm / 4 pieces - 11 kg
